Projects

E-Commerce Website [🔗](#)

An interactive E-commerce website built with HTML, CSS, JavaScript, and modern frameworks, featuring a responsive design, intuitive navigation, and appealing aesthetics. Key features include product listings, categorization, and a clean, performance-optimized layout, showcasing expertise in frontend development and user-focused design.

Lead Management System (LMS)

- Built a full-stack lead management platform using MySQL, GoLang, React, and Node.js.
- 🚀 Automated lead capture (forms, CSV upload)
- 📊 Implemented lead scoring, nurture email flows, and Kanban-style pipeline dashboards
- 🛡 Enabled role-based access with JWT-secured REST APIs
- 🌐 Deploy on AWS S3 , EC2 .
